

Dewan PUBLIC SCHOOL INTERNATIONAL

FUN & FROLIC

Volume: 1

Session 2022-23

April-May 2022

**From the desk of the
Head Mistress**

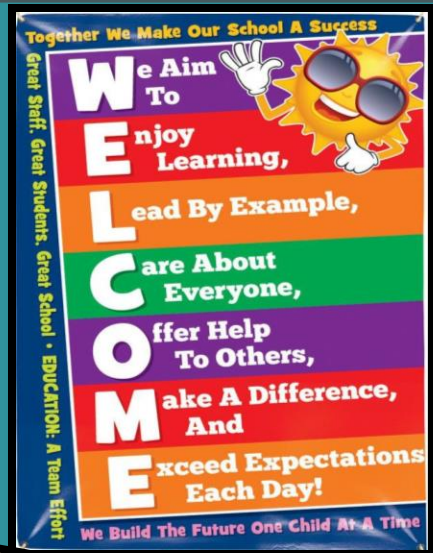

Welcome to the first edition of '**Fun & Frolic**' the Newsletter of the new session 2022-23 of Elementary Section by Dewan Public School International, Meerut. It is a matter of great pride to speak to you through this Newsletter. Children are like the petals of young flowers. Every morning I see their innocent faces and I observe the tenacity of their bright future in their shining eyes. It is up to us as teachers to nurture good values in students. We wish to mould our children in such a way so that they turn out to be perfect human beings.

Our team is completely devoted to make this institution a place where children can develop their talent in the field of academics, co-curricular activities and sports as well as social and cultural heritage.

Hope for the best, eventful and productive academic session. Let's march towards achieving success.

Sushma Goel
Head Mistress

A Warm Welcome to DPSI

DPSI heartily congratulates the students on being promoted to the new class and extends a warm welcome to the new students.

We are always looking for the new ways to give the new session - a dynamic and zestful onset. The health and safety of our students and staff is our utmost priority and we will make sure to work energetically and ardently to fulfill all the necessary guidelines to furnish school needs to give the students a home like environment..

Class: Pre- Nursery - Ms. Pooja Routela

Class: Nursery - Ms. Aradhna Yadav

Class: KG Carnation- Ms. Chhavi Garg

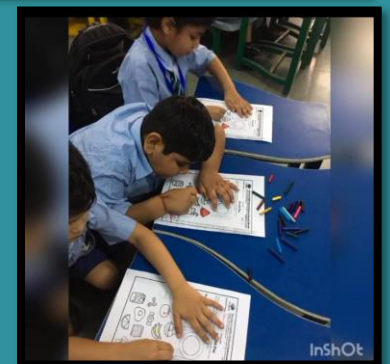

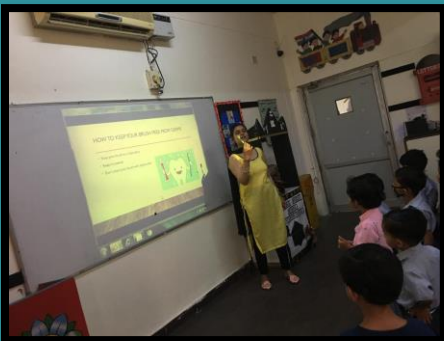

Class: KG Daisy - Ms. Mahima Varunika

Teachers of DPSI are hardworking, creative and flexible. They have passion for their job. They have sense of humour as kids like having fun. They are in touch with the parents regularly on whatsapp, E-mails and personal calls.

Celebrations

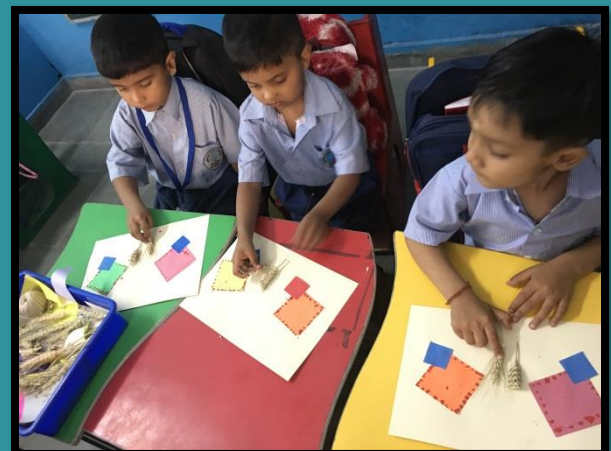

HEALTH DAY

The World Health Day is celebrated every year on April 7. This year we celebrated health day for four consecutive days. The kids enjoyed and performed various activities about Healthy teeth like brush teeth properly twice a day & what type of food is good food for our teeth. Healthy body like Balanced diet and how to keep our body fit and healthy. It was followed by various worksheets. The kids enjoyed all the activities enthusiastically.

BAISAKHI

The Festival of Baisakhi is considered to be an extremely important festival in India for number of reasons. Apart from being important for the farmers as a harvest festival, the festival is of prime importance in Sikh community as it is the foundation day of Khalsa Panth. Our Children were made aware about this festival and they enjoyed by making a Baisakhi crafts, doing Bhangra, flying kites and much more.

EASTER

Easter Sunday is celebrated as the day of Jesus Christ's resurrection. The children were shown the video of Easter story. The teachers explained the story from crucifixion to resurrection of Jesus. The kids enjoyed making and colouring eggs of Papier-mâché. An Easter scene was also created to enhance their learning. Eggs, chick and bunny are the symbol of new life.

EARTH DAY

Earth day is the day that is intended to extend awareness for the Earth's natural environment. It is celebrated globally on April 22, every year. The center of theme is that we should build the future of earth in upcoming years.

The old practices of using energy and waste management have to be rediscovered in a new way to save the natural balance of the earth.

MOTHER'S DAY CELEBRATION

Mother's Day is celebrated to honor all the mothers and express gratitude for the hardships they bear in upbringing a child. It is celebrated every year on the second Sunday of May month to honour mothers as well as to respect motherhood. This auspicious day was celebrated in DPSI on May 09, 2022 a day after the Mother's day. Mothers were cordially invited to spend a memorable day filled with fun and activities. Fashion show, Talent hunt, Super Collector, Word Master and what in your Mom's purse were also organized for mothers and children. The celebration was ended with full enjoyment of mothers and children and taking back fond memories of a day well spent.

BIRTHDAY CELEBRATION

Last working day of every month is celebrated in a special way. The children whose birthday fall in that particular month, their birthday celebration finds an expression on that day. In the month of April the students were supposed to come in red colour clothes and in the month of May the students of Pre-Nursery, Nursery and KG were supposed to come in red, yellow and blue colour clothes respectively. They enjoyed the birthday party as the birthday cake was cut and served to all.

Events of the Month

PARENT ORIENTATION

Parent orientation was held on April 30, 2022 to make parents aware about the best teaching and learning environment, emphasize on value system and Jolly phonics- a well known methodology for teaching English at the Pre-primary and Primary level. They were informed about the strategies of school functioning.

LEMONADE PARTY

Lemon party was held on May 20, 2022. Children were made aware about the benefits of lemon and lemonade. Lemonade making demonstration was also done by the teachers. Lemonade party was enjoyed by all the students and teachers.

First Day of the Session 2022-23

April 01, 2022 the first day of the school is memorable. All the students were taken for a school tour including the visit to Principal office, music room, front office, IT lab, library etc. They did number of activities on first day. The day was fun filled.

Books are our best friends

Happy with the Principal

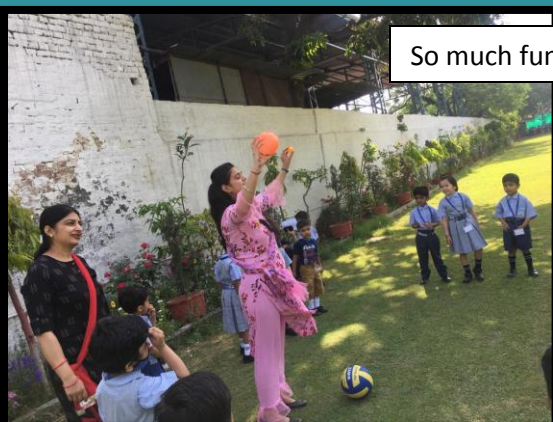

My First Day Activity at School

Be an IT person

So much fun!

Wow! My hand prints!

UOI

CLASSES: Pre Nursery, Nursery & KG
PROJECT: All About Me

Unit of inquiry in the form of project for this month was '**All About Me**'.

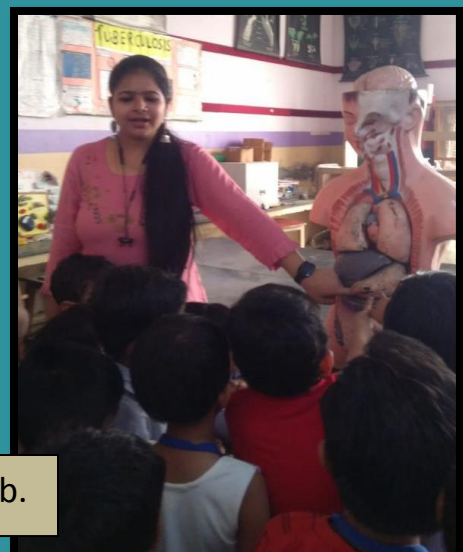

As the session started, settling down activities in all classes were done to make children feel comfortable in the school.

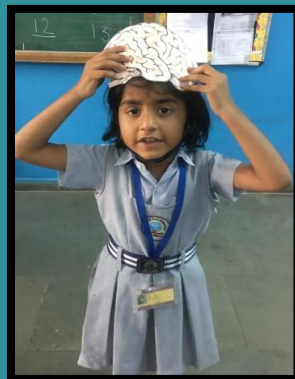

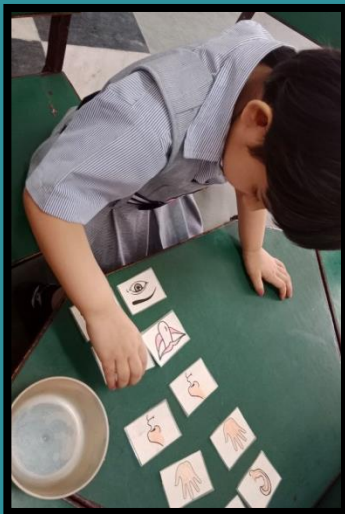

Then, the children were acquainted about their body, parts, how to take care of personal health & hygiene, their family and school. Keeping our body & environment clean is an important part of keeping oneself healthy. The teaching level of the project was according to the class level. KG kids learnt about internal organs and sense organs through various activities.

Caring about the way you look is important to your self esteem, was told to students. This topic gave them the idea of looking best. Brushing teeth, washing hands, combing hair, wearing clean clothes are some of the activities which were stressed upon. They were taught through group activities, rhymes, craft, videos, enactment, conversation etc. The academic activities too were associated with the project.

Visit to Biology Lab.

CLASSES: Pre Nursery, Nursery & KG

SUB PROJECT: Summer Season

Summer is the hot season. The bright sun shines. The students were informed that during this season days are bright & longer. Summer is associated with life, birth & revival. Kids were acquainted with summer fruits, vegetables, flowers, drinks, clothing, activities etc. They were made aware about the do's and don'ts for summer season. By following some handy tips one can enjoy summer.

Kids doing activities on Summer Season

Sensorial Activities

Sensorial comes from the word senses. The child is able to concentrate on the refinement of all his senses, from visual to stereognostic. The purpose of sensorial work is for the child to acquire clear information and will be able to make classifications in his environment.

LANGUAGES

English

Pre Nursery:

Tiny toddlers learnt to introduce themselves. They were made aware of the sounds they hear in the environment. They were acquainted with the sound they come across in their daily routine. They learnt the sounds like s, a, t, and to associate them with pictures of that sound. They learnt the rhymes in English. We are also working to enhance their listening skills by storytelling and through videos.

Nursery: Conversation in this class revolved around "My Self" & "Summer Season". They were able to recognize some sounds & associate them with the given pictures. They learnt how to write different patterns. Pre writing skills helped them to write properly. They were able to trace & write sounds like s, a, t, i, p, n. Montessori activities helped them to write in a proper way. Various activities like storytelling, watching videos improved their listening skills.

KG: Our kids in class KG conversed about "My Self" & "Summer Season". They were able to speak sentences confidently about these topics. Recap was done to write A - Z and a - z. They learnt to write three letter words. They were able to code and decode three letter words. Montessori activities had given a helping hand to read and write the sounds and word in a proper way. Their vocabulary was enhanced by using the words from word list in their daily conversation.

Tracing in sand

Tracing with
Montessori card

Glimpse of English activities.

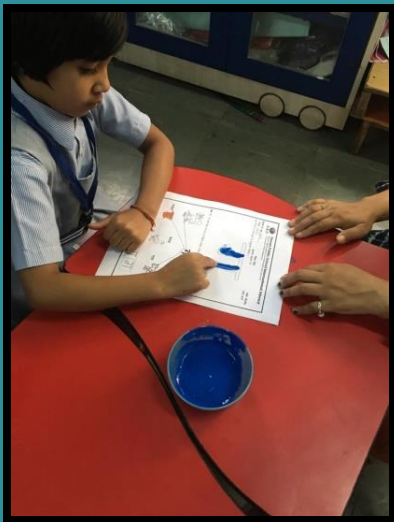

Hindi

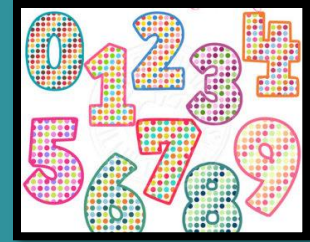

Pre Nursery: little students learnt to speak correctly without stuttering. They were able to recite rhymes.

Nursery: students learnt to speak properly and recite poems. They could recognize some fruits & tell their names in Hindi.

KG: Children of this class progressed with writing of vyanjans. They were able to write the first Akshar of the given picture. They were able to read and write two letter words in Hindi. They also learnt the names of some fruits in Hindi.

Number Work

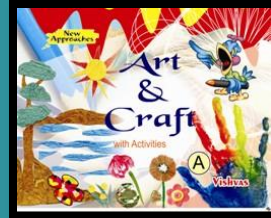

Pre Nursery: Number skills of the students were honed by pre number activities. They could match corresponding pictures. They could sort the colour & shape. They were able to differentiate between big & small objects. They were introduced to numbers 1 & 2. They could associate numbers to the quantities. They learnt all this through games, rhymes, Montessori & other activities.

Nursery: The kids were able to count numbers up to 10 orally. They had learnt to write numbers 1-5 after doing various pre number activities. Cards & counter helped them to associate numbers with quantity. They could match & sort the objects of circle & triangle shape along with red & yellow colour.

KG: The children learnt to write numbers 1-50 in sequence. They were able to speak numbers 1-100 in sequence. They could form quantities up to 50. They learnt the concept of after, between & before and concept of more /less. The Montessori activities helped them in learning the concept of ten.

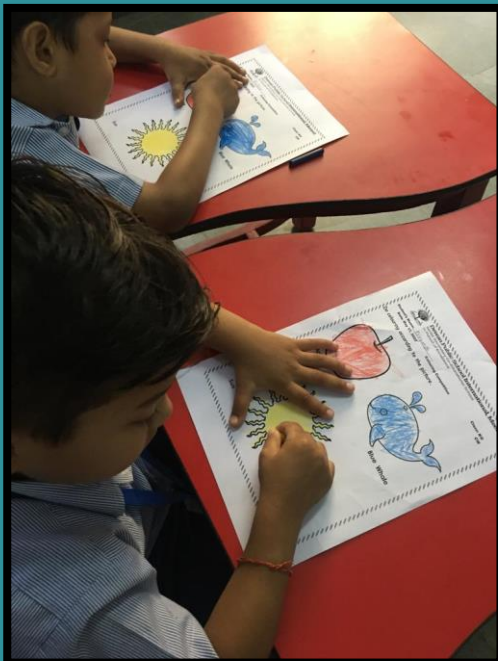

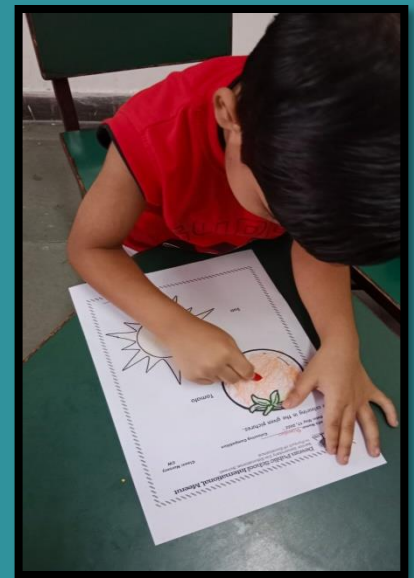

Art & Craft

Creativity is as natural and necessary for children as fresh air and sunshine! By exposing children to creative experiences, we give them the gift of a rich and memorable childhood while laying the foundation of creative expression for a lifetime.

Children did various activities of colouring and craft work. They all enjoyed a lot in these creative activities.

Music & Dance

Music has a great effect on human mind and heart. It rejuvenates emotions in human heart. It leaves an indelible mark on human mind. It is a kind of food to a tired mind. Our children love to dance & sing.

Games & Recreation

Games are important in every walk of life. They help to build a good physique. They also make children mentally alert and physically strong. Games are the important means of recreation. Kids spend some time in outdoor games and activities. This month our children participated in chimpanzee race and other sports events.
